

REFRIGERANTS & CYLINDERS

Refrigerants

Airefrig Part Number	Applications
R123	Large Centrifugal Compressors
R124	Predominantly found in high temp heat pump & crane cabin A/C applications
R134a	Medium Temperature Commercial Refrigeration Domestic Refrigerators Automotive Air Conditioning
R22	Commercial and Domestic Air Conditioning Medium Temperature Refrigeration
R404A	Medium & Low Temperature Refrigeration
R407C	Replacement for R22 - Air Conditioning New Systems - Not Retrofit
R409A	Substitute for R12 - no oil change required - Low & Medium Temperature Refrigeration
R410A	Replacement for R22 Air Conditioning - New Systems Only - Not Retrofit
R417A	ISCEON MO59 - R22 DX Stationary Air Conditioning - R22 DX Medium Temperature Refrigeration
R422A	ISCEON MO79 - R22 DX Medium & Low Temperature Refrigeration
R422D	ISCEON MO29 - R22 DX Water Chillers - R22 DX Stationary Air Conditioning - R22 DX Medium Temperature Refrigeration
R507	Medium & Low Temperature Refrigeration
R508B	Ultra low temperature applications
R717	Large Industrial Refrigeration Systems
SP34E	Commercial & Domestic Refrigeration Automotive Air Conditioning Replacement for R12

Note: Other refrigerants are available upon request.

NITROGEN & CYLINDERS

Nitrogen & Cylinders

Airefrig Part Number	Description	Quantity (Litre WC)	List Price Excl GST
0728010	GAS NITROGEN 10 LITRE WC PACK (D SIZE)	10	P.O.A.
0728020	GAS NITROGEN 20 LITRE WC PACK (E SIZE)	20	P.O.A.

- Nitrogen cylinders are subject to a service fee – please contact your nearest Airefrig Australia branch for details.
- Nitrogen cylinders not returned to Airefrig Australia within an 18 month period will be invoiced as an outright cylinder sale.
- For further information regarding this service please contact your nearest Airefrig Australia branch.
